FORESTER ASKS CHILDREN'S AID

**Col. Greeley Wants Schools
To Help Combat Fire
Menace**

(Special Dispatch)
WASHINGTON, Nov. 28.—An army
of 22,000,000 in which every school
child in the country has been asked
to enlist to combat the national en-
emy—forest fire, is proposed by the
forest service.

Thanksgiving Day**

Chief Forester William B. Greeley
has just written the state superinten-
dents of schools calling attention to
the danger from the dry condition of
the forest and woodlands at this time
of year and seeking to bring before
the children the need of care with
fire.

According to estimates made by
the forest service, 33,000 forest fires
occur annually; more than 60 per
cent are caused by human carelessness.
Each year these fires burn over
7,500,000 acres, an area greater
than Massachusetts, Connecticut,
New Hampshire, and Rhode Island
combined. Seventeen million dollars
of our country's wealth is each year
reduced to smoke and ashes.

ENLIST SCHOOL CHILDREN.
"Can we not," asks Colonel Greeley
in his letter, "enlist the school
children of the country—there are
twenty-two million of them—in an ef-
fective army to fight a national foe
that ravages the land before our eyes?"

"In your state, and in many others,
forest fires are common in the fall.
This year drought has made the dan-
ger unusually great. Already fires
have dealt death and destruction wide-
ly in some regions. Your own state
will not go unscathed. Rains may di-
minish the danger, but even with
the most favorable conditions before
snow flies thousands of fires will have
run in the forests of the East and
North.

ROYAL PLAYGROUNDS.
"The woods are royal playgrounds,
for young and old. And they are
never more so than in the fall. After
school, and on holidays, our young
people will have glorious times nut-
ting, tramping, some of them hunt-
ing in the woods, and frolicking in
the fallen leaves.

"The leaves are dry. Sun and wind
and frost combine to cover the ground
with potential tinder. It does not
take long after a rain for the forest
floor to become inflammable again.
Then a little carelessness or thought-
lessness, and a fire is started.

MAKES APPEAL.
"I wish I might tell every boy and
girl in the United States of the fires
that I have seen, and the terrible re-
sults of forest fires when they be-
come big, and the harm that even
small fires do. I wish I might ask
each one of them to promise me his
or her help in keeping the forests
green.

"I can not do that, but with your
permission, I can perhaps do some-
thing like it. I can ask the teachers
in every school in your state who
know that the forest wants the help
of all school children and their in-
dividual pledge to be careful and to
try to get others to be careful to pre-
vent forest fires."

GOING TO BOISE ON LAND CONFERENCE

To complete the last details rela-
tive to the exchange between the state
of Idaho and the national forest, dis-
trict four, of lands, District Forester
R. H. Rutledge and Acting Assistant
District Forester R. E. Gory, in charge
of the department of lands, will go to
Boise tomorrow. The present deal in-
volves the transfer of approximately
17,000 acres of land which will give
to the state of Idaho all of its lands
in a more unified area and do like-
wise for the lands controlled by the
forest service. Both officials expect
to return Thanksgiving morning.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N.
Y., suffered for years with rheumatism.
Many times this terrible disease left him
helpless and unable to work.
He finally decided, after years of cease-
less study that no one can be free from
rheumatism until the accumulated im-
purities, commonly called uric acid de-
posits, were dissolved in the joints and
muscles and expelled from the body.
With this idea in mind he consulted
physicians, made experiments and finally
compounded a prescription that quickly
and completely banished every sign and
symptom of rheumatism from his system.
He freely gave his discovery, which he
called Allenhu, to others who took it,
with what might be called marvelous
success. After years of urging he de-
cided to let sufferers everywhere know
about his discovery through the news-
papers. He has therefore instructed drug-
gists everywhere to dispense Allenhu
with the understanding that if the first
pill bottle does not show the way to
complete recovery he will gladly return
your money without comment. All drug-
gists—Advertisement.

Catarrh Quickly Ended by a Pleasant Germ-Killing Antiseptic.

The little Hyomel Inhaler is made of
hard rubber and can easily be carried in
pocket or purse. It will last a lifetime.
Into this inhaler pour a few drops of
magical Hyomel.
This is absorbed by the antiseptic gauze
within and now you are ready to breathe
it in over the germ infested membrane
where it will speedily begin its work of
killing catarrh germs. Hyomel is made
of Australian eucalyptus combined with
other antiseptics and is very pleasant to
breathe.
It is guaranteed to end catarrh, bron-
chitis, sore throat, croup, coughs and
cold or money back. It cleans out a
stuffed up head in two minutes.
Sold by druggists everywhere. Adver-
tisement.

IMPROVING ROADS FOR AUTO TOURISTS

Fifty-two miles of roadway leading
from Fredonia to the Grand canyon
of the Colorado, which passes through
the Kaibab national forest, will be
practically completed during the next
season, according to an announcement
made this morning by District En-
gineer J. P. Martin of the forest ser-
vice, who returned today from a two-
weeks' inspection trip to that sec-
tion.
From Fredonia to the Grand can-
yon it is about 72 miles in length, he
said, and the total cost of the road
work will be in the neighborhood of
\$75,000.
The roadway will be used princi-
pally for tourist travel but it will also
allow the better administration and
protection of the national forest.
Twenty miles of the roadway that
lies within the forest national park
was completed last year, and one
mile inside of the Grand canyon. The
estimated cost to complete the re-
mainder inside the forest is \$31,000.
The new roadway will use the old
route that leads up over the La Fevre
ridges.
District Engineer Martin, also ex-
amined 18 miles of the Sevier-Sum-
mit roadway in Kane county, that is
part of the Grand canyon highway
and also made an examination of the
Circleville Canyon roadway which is
four and one-half miles in length and
part of the same roadway in Gar-
field county. There has been allotted
for that road \$60,000 and it is ex-
pected that it will be completed next
season. It will eliminate a very bad
portion of the highway.

SCOUT LEADERS TAKING TRAINING

Training courses which have been
offered at Ogden and Layton for Boy
Scout leaders are meeting general
favor, according to Scout Executive
G. A. Goates of the Ogden district.
At the school held at Weber College
last night 59 Ogden men were in at-
tendance. The Layton school, which
is held on Thursday evenings has an
enrollment of 42.
After December 1, similar schools
will be opened at Brigham and Mor-
gan.
The school at Brigham will be held
on Tuesday evenings, while the one at
Morgan will be held Friday of each
week.
Scout Executive Goates said today
that Morgan county had raised the
quota for the district drive, the
amount being \$500. Brigham City is
near the close of her drive for 1923
and 1924.

THEATRES

**"Clarence," Comedy With
Three Stars, Now Show-
ing at the Alhambra**

William De Mille's Paramount pro-
duction of "Clarence," featuring Wal-
lace Reid, Agnes Ayres, and May Mc-
Avoy, which is now being shown at
the Alhambra theatre, presents some-
thing really new in the film world,
when one considers the past perfor-
mances of the director, as well as the
achievements of the stars named. This
is that picture is distinctly a com-
edy, not overburdened with plot, yet
at the same time delivering a mes-
sage that is quite worth while.
Clarence Smith is a coleopterist,
and also he is the only man in the
world who ever drove army mules
without swearing at them. He comes
unconsciously into the Wheeler
household where barking and biting
and bickering is of daily if not hour-
ly occurrence and the family is on

the point of breaking up, when he
begins his work as fixer. His quiet
rustful nature manifests itself, and
before long he becomes the confidant
of every one in the house. It is
then that with tact and patience he
sets out to build up permanently the
crumbling house of cards, and in the
end he succeeds most happily.
But from beginning to end, even
though the issues at stake are ser-
ious, the proceedings prove to be
most humorous. The picture, which
is based on the celebrated play by
Booth Tarkington, is said to be the
comedy hit of the year. The support-
ing company is of the finest grade.
The other features are Fay King, so-
loist, in costume. Monte Banks com-
edy, the latest Fox News, and the
special music on the big Kimball or-
gan.
